What is an Advanced Certified Infant Massage Teacher | CIMT®II ?

**An Advanced Certified Infant Massage Teacher (CIMT®)II is not only an instructor, but also a parent educator who teaches the healing art of infant massage to parents or caregivers in the presence of their babies.**

**Having an advanced certification with the proper foundation and evidence-informed education gives the CIMT® knowledge for adapting lessons and parental guidance to safely and effectively provide touch therapy for their child.**

Certification qualifies the CIMT®II to demonstrate knowledge and skill in guiding parents and families in the practical application of infant massage.

Advanced Certified Infant Massage Teachers, teach parents and caregivers how to massage their children in group and private classes.

Infant Massage Teachers do not directly massage babies, but rather use baby dolls to demonstrate infant massage techniques. Certification as an advanced Infant Massage Teacher does not grant certification to provide hands-on touch therapy for infants. Our goal is to help empower families in the use of infant massage to nurture their loving relationship.
