L I D D L E K I D Z[®]

Globally, we are dedicated to ensuring every child has the best chance for success. Our innovative and pioneering programs give children a healthy start and the opportunity to thrive.

Through our advocacy efforts, we address healthcare needs and use the power of touch to reach the world's most vulnerable children with experiences of nurturing touch that they often lack.

With nurturing, compassion and touch therapy, children will develop and reach their full potential. We strive to address their critical tactile needs by working directly with their families and healthcare providers in pediatric hospitals, hospices, and orphanages to provide comprehensive nurturing services, consultation, education, program development and support.

We are committed to furthering the development of touch therapy services for vulnerable and underserved populations internationally. Through education and support we work to create replicable and sustainable change.

The information contained herein is in no way intended to replace medical advice, but rather to offer suggestions on how you might apply nurturing touch and pediatric massage for children.

The author does not dispense medical advice or prescribe the use of any technique as form of specific treatment without the advice of a medical professional. A healthcare professional should be consulted prior to beginning any massage program to ensure the health and safety of the child.

Neither the author nor the publisher can be held responsible for any damage or injury resulting from the use of the techniques in this book.
